# The Truth About Fort Hood Shooting Attack

We are dedicating this book to all the US Service people currently serving and who have previously served whom US Military Chiefs and Corrupt Politicians have used, abused and tossed them aside, lying to them.

Sending them off to Wars in which the USA creates to fight to enrich the Zionist Bankers and Corporations and to protect and fight for Israel.

War criminal Henry Kissinger thinks **"Military men are dumb, stupid animals to be used as pawns for foreign policy"** as quoted in "Kiss the Boys Goodbye How the United States Betrayed Its Own P.O.W.s in Vietnam"

Rudd finds it important to meet war criminal Henry Kissinger to get advice

Major Sir thank you for your faithful service to the Country  
United States of America and the Military

A shame these American born Jews and dual citizen Jews don't show the same devotion as you did to USA, instead they run off to serve in the Military in that criminal safe haven country of Israel, Jews have stolen and set up so they can hide from crimes they commit around the World

# **The Truth About Fort Hood Shooting Attack**

## **Introduction**

Welcomed to **The OzBoy File – The Truth About Fort Hood Shooting Attack** which happened on November 5, 2009, at Fort Hood, the most populous U.S. military installation in the world, located just outside Killeen, Texas.

The most criminal part of this attack is the way the Great Super Power (Uncle Sam) The United States Military and corrupt politicians both sides deliberately lied and turn this attack around blaming the attack on the good Major when he was innocent.

The US Military command for political purposes of defending itself in being stuck in 5 Wars around the World by design used these attacks against a good serving Officer loyal to the country to help push agendas which corrupt politicians had sign the country and citizens up to without their consent.

PNAC and Clean Break Agendas, instead of admitting they had a problem with some men returning back from Iraq and Afghanistan they covered the problem up and blamed – set up – twisted the story about to blame the good Major.

By blaming the good Major it also helps the Neo Con, First Israeli's, Dual Citizens Israeli's infiltrated within the whole aspect of American life, in demonizing the Palestinians.

As nasty do evil things and push the Clean Break Plan which America is carrying out at this present time along with the PNAC agenda for the benefits of The Wall Street / London Bankers, The Oil Cartels, Big Corporations, AIPAC, CFR, Trilateral Commission and the Security & Military Industrial Complex who have firm control over the White House who ever is in there, The Congress / Senate and Mainstream Media.

I hereby accuse the Mainstream Media the World over of deliberately lying to the people of the World about these attacks and after reading this book, your not convinced that the Mainstream Media are a pack of liars, nothing more then a propaganda arm of Government who (REPEAT the News) they don't ever investigate or (REPORT the News) they just repeat what ever script their given without question.

Then your most probably brainwash and under MK Ultra mind control there is no hope for you.

ABC – Channel 2  
Channel 9  
Channel 7  
Channel 10  
SBS  
BBC  
NBC  
MSNBC  
CNN  
FOX  
ABC

The whole lot of these scoundrel liars in this book will be exposed as not only liars, but also sheer down right incompetent.

But when you understand the same Mainstream Media is intertwined with the above, its any wonder Americans and the people of World are dumb down, treated as if they are stupid, because the Mainstream Media deliberately lies and take their orders from above who control them, which amazingly enough 96% of The Worlds Media which includes Hollywood is controlled by 6 Zionist Jews.

So that all being said, lets begin instead of reading a book Chapter by Chapter you will be hearing a running account of what happen that day first hand.

Let me explain further when this attack was taking place I happened to be in a Chat Room, called **"The Wake Up Project"** which is under Social Issues – Then Government and Politics' on the Pal Talk Chat Program.

As it turns out Steve Johnson and myself were talking to a few other researchers, investigators about a few other stories and this hit the news.

So Steve Johnson and myself and these other 10 researchers – investigators started hitting all the Mainstream Media News Sites in Texas and were feeding in the (WHOLE) story as it was happening and unfolding at the time about the attack into the room for it all to be saved and archived at a latter date.

Then in live time we were examining what was true being reported by the Mainstream Media from false stories the US Military & Private PR Company's were feeding into the mix, ready to cast doubt and wait for The Official Story to be released by the Government to the Media.

And then that Official Story would be the only story quoted then, and all the other stories of other shooters, other people involved would suddenly disappear from news Websites.

So without further rambling here is a (FIRST Hand Account) story Investigated and Written about by a Correspondent we had in Texas at the time, and our own Steve Johnson.

The story and details were featured on South East Asia New.org

[http://southeastasianews.org/fort\\_hood\\_false\\_flag.html](http://southeastasianews.org/fort_hood_false_flag.html)

Sit back get yourself a cup of coffee or beer and read about The Fort Hood Shootings live.

Remember as your read, this is the only evidence collected the Good Major is innocent and it wont see the light of day, if we did try to present details in this story and book to the Courts.

We too would be declared as "Al Qa`eda Terrorist" and locked up, tortured, drugged up never to see the light of day again. America is such a Nazi – Fascist Police State sssshhhh!

**\*\*\* BREAKING NEWS STORY \*\*\***

The attack on an American base at Fort Hood was a disturbing tragedy and a very TRAGIC incident.

However as with all False Flag Attacks.

The initial facts of the story get lost after the first flurry of reporting.

South East Asia News.org Texas Correspondent

January 17th, 2010 12:09am

Pictured ABOVE: Lieutenant General Bob Cone speaks to the media during a news conference at Bernie Beck Gate in Fort Hood.

- **A HISTORY OF EVIDENCE REMOVAL DURING FALSE FLAG ATTACKS.**

One thing that has ALWAYS been the same with these False Flag Attacks is that soon after the story twists and changes.

Facts and figures get changed around and the story inevitably turns into a tall tale.

We saw on 9-11 the initial FAA Press release of the shooting death of Daniel Lewin the supposed first death on 9-11, the passenger on flight 11.

And so happened to be Mossad agent and Sayert Merkal - The crack Israeli anti aircraft hijackings squad.

Daniel curiously enough is still the CEO of Akamei.net the largest secure server farm in the world with clients such as Yahoo.com, microsoft.com, google.com and other military clients.

(And listen to it still alive)?

The Press release was about 2 hours later very quickly detracted and re-released as " a box cutting knife wound to the neck " when the FAA suddenly had to remember the official version HAD NO GUNS onboard.

Likewise in the Uk False Flag event of 7/7/05, the 07:40 am train going into London was always used by intelligence agencies as definitely the train the suicide bombers used to deliver their targets.

Only problem was, that train was cancelled on that day.

Oh Me – Oh My – Don't You Hate Liars? They have to have a good memory which Police – Intelligence Agencies don't.

Also on the day, the Police announced by press release they had shot dead three suspected suicide bombers in the Calvary wharf area (the three backpacking patsies they eventually blamed).

2 hours later they withdrew the press release and disavowed any knowledge of the story.

The twisting turning tall tales of terror.

These stories have been buried in the public collective memory hole since they happened.

## **NEATLY WRAPPED UP BY THE MEDIA**

With the case of the Fort Hood Shootings, the media neatly wrapped it all up for the reading consumers within 24 hrs.

On November 5th a Muslim objector to the Iraq and Afghanistan occupations took two handguns and began shooting his fellow military servicemen and women.

Sounds simple enough.

Especially when there is supposed evidence to show anti-American sentiments...this BELOW being used as DIRECT EVIDENCE of his hatred for America

brave hero that sacrificed his life for a more noble cause. Scholars have paralleled this to suicide bombers whose intention, by sacrificing their lives, is to help save Muslims by killing enemy soldiers. If one suicide bomber can kill 100 enemy soldiers because they were caught off guard that would be considered a strategic victory. Their intention is not to die because of

With the trial soon to start and already they are assessing the mental capacity of the accused to stand trial.

## Fort Hood suspect's lawyer seeks mental exam delay

It's not so much what the media reports, it is more about the facts the media OMITS in its reporting.

With this in mind..

A number of things begin to stand out as we build a profile of Fort Hood shooting that looks for all intents and purposes like a False Flag Attack.

As luck would have it....

As news of the shooting surfaced, on November 5th 2009, at that very particular time I just so happened to be sitting in a researchers chat room-discussing research with other chatters and investigators including myself and Ozboy.

We all immediately sourced some local news feeds and live TV coverage of the event and all of us poured over the links and feeds that were coming out of Fort Hood, digging into the records available on Nidal Malik Hasan.

Within minutes we had 3-4 simultaneous feeds of what was happening...

All from Emergency Service Reports to local radio Internet feeds...

Getting everything we possibly could and archiving it.

The amazing advantage was that we could all source immediate raw data on the accused, untainted and untampered with.

3 shooters were initially reported, a major and 2 other shooters..

One even being arrested on a nearby golf green in full combat fatigues.

## Fort Hood Suspect Arrested at Nearby Golf Course, Was With Hasan

A surviving Fort Hood suspect was reported to have been caught at a nearby golf course according to a senior officer who was playing golf yesterday evening near Fort Hood in Texas.

The name has not been released at this time but this person is believed to be one of the two surviving suspects of the shooting and was reported to be with Malik Nadal Hasan.

The officer who was on the golf course said that military police arrived at the facility and told him and others to clear the course and about 30 to 40 cars carrying the police arrived.

The officer said he ducked in to a nearby house for cover.

He reports that he saw a soldier in battle-dress uniform with his hands in the air being arrested by the police.

He was ordered to lie on the ground and open his uniform to make sure he wasn't carrying any explosives.

He said an MP told him that authorities considered the man to be a suspect in the shootings after having overheard the man say he was with the shooter.

The golf course is located about 2.5 miles from the army base.

## **Major Hasan Of Fort Hood - A Patsy In A Drill Gone Live?**

By Webster G. Tarpley

11-15-9

In the wake of the massacre at Fort Hood Texas , two principal theories have emerged to explain the conduct of the accused shooter, identified by the U.S. Army as Major Nidal Malik Hasan, an Army psychiatrist of Jordanian-Palestinian ancestry. One of these theories is embraced by left liberals and other supporters and acolytes of the Obama regime, and argues that Major Hasan is a sincere and devout Muslim who was the victim of a tragic contradiction between his religious faith and the logic of the Iraq and Afghanistan wars, both the heritage of the odious Bush-Cheney regime. According to this version, Hasan must be viewed as a troubled and tormented individual who "snapped," breaking down psychologically under the stress of his awful predicament. Here is how Obama summed up this approach: "Even within the extraordinary military that we have -- and I think

# Fort Hood TEXAS Shooting: 13 Dead 30 Wounded at Military Post

There has been a shooting at Fort Hood military base in Texas today, with thirteen people dead, and 30 wounded.

One of the dead is a civilian.

The incident took place at about 1:30pm Central Time today.

The alleged gunman shot on the scene was identified as Major Malik Nadal Hassan.

There was a graduation ceremony going on at the time of the shooting.

Some wounded were taken to Darnell Army Hospital and the others were flown to Scotten White Hospital in Temple, Texas.

Malik Nadal Hasan was thought to have been killed, and two others were in custody, but have now been released.

Another is in custody however.

The identities of the other three men are not being disclosed at this time.

Unconfirmed reports stated that the shooters may have been carrying M-16s, but it was revealed that Malik Nidal Hasan was carrying handguns.

KCEN was reporting that a second suspect might have barricaded himself or herself in a building.

Sen. Kay Bailey Hutchinson spoke to officials at the army base and said that the shooters were in military uniform, and " Lt General Bob Cone has now confirmed that they are US Military personnel.

All the wounded were also US Military personnel."

WUSA 9 has a video on the incident

The Army confirmed early that a violent incident has taken place and first reported that many as fifteen people could be involved.

Ambulances and police were on scene on a location in the center of the Army post.

The Fort Hood Military website is currently unavailable.

The shooting took place at the Soldier Readiness Center, where soldiers enter and leave the base to go to and come home from war, and a Theatre Field Complex on the base.

President Obama held a news conference on the shooting saying that "my immediate thought and prayers are with the wounded and the fallen" and he asks all Americans "to keep the men and women of Fort Hood in your prayers".

Two nearby school districts were on lockdown as well, but the army base and the schools no longer are.

The Fort Hood Military Base is one of the largest US military bases in the world.

This incident is being compared to the Luby's Massacre in Killeen in 1991.

More information when it becomes available.

-----

Reports coming out first hand within hours reported the shooter had been killed and the incident was all over.

When the first reports of his Anti American online writings came to the surface.

I personally within hours of the shootings went and checked on the scribd account that was being blamed to be associated with the shooters writings about "suicide deaths" in Islam....

It seemed obvious to me that the poster had just minutes earlier posted a POSTING.....

Yet this was being used as direct evidence that Nidal Hasan WAS the anti American Muslim being sold by the media.

This account posting some hours after the shooter being reported dead proved IT COULD NOT REALLY HAVE BEEN HIS ACCOUNT.

Somebody used his name and set him up.

Notice also that the account was created March 13th 2009?

Some eight months before the Fort Hood incident.

Consider also the "favorites" in this account they are definitely somewhat deliberately vague and random.

However like all true false flag attacks, then the story suddenly changed to he was alive and in custody.... then suddenly he was wounded and rushed to hospital, in the meantime the public news media are selling all kinds of hogwash to the public.

Even an unsubstantiated claim he was shouting "Allah Ackbar" one that was never ever substantiated.

Never the less these half truths start to remain as a "fact" of Fort Hood and never again questioned as to legitimacy.

Once the dust had settled on the news day it was only then possible to sit back and digest the sheer volume of information at ones fingertips, archive it and wait for the day to write the article.

Well here it is.

## FALSE FLAG FACTORS

Then comes the impossible facts and figures one has to take into account surrounding the actual events.

These are the hallmark trademark signs of a False Flag Attack-taking place.

Such factors including: -

A) Did the media Spin Machine milk this story for all it's worth?

B) What Background was employed to undertake such an act?

C) Was there a Drill taking place at the same time?

D) What kind of armed Resistance the shooter faced in the largest US army base in the world...

E) The kill per wound ratio The Logistics ....

F) Shootings with handguns ...what kind of accuracy is displayed for (1) lone shooter... Lone Gunman Theory

Let us all look closer at these questions: -

## A) Spin Machine

The media Spin machine went into overdrive after this shooting?

True or False?

Nidal Hasan "Said his Goodbyes"

Muslims Stunned By Fort Hood Shootings

Officer describes firelight that downed Hasan, ending deadly Fort Hood rampage

Muslim Americans to take the blame for Fort Hood

Do you notice only "official" Army photos are ever seen of Him?

Nothing except 1 video camera surveillance and about 4 Army photos taken at varying dates.

There's no photos of him on holidays in Florida or that time with his aunty Ethel....

No close-ups with his pet poodle spot or last weekends barbeque with Uncle Yussuf....

All that exist of his WHOLE life are pictures from military archives.

Is that not curious enough to start to become suspicious about who this person "really" is?

Whereas the pictures of him and his favorite fern tree?

Or that time in Ramallah with his family eating dates by the river?

Why are there simply no "real life" pictures of a man we are being sold as a cold military trained killer?

Where are his weekend photos at the waterslide last summer?

The ones where he is photographed at 2am at a party in Houston?

We are sold a lifeless soldier by these images and that's what they want you to think...

This is an individual who was trained we may point out by the United States Military ... and it seems also trained by Homeland Security...

Yet in this photo, I could easily mistake him for Colonel Moyshe Goyshstein of the IDF. And that isn't too far fetched when you consider 200 + Israeli Mossad and IDF people were rounded up after 11<sup>th</sup> Sept 2001 Terrorist Attacks and sent home to Israel.

Also it isn't too hard to believe since people who work at the Pentagon report Israeli's walking up and down Hallways at the Pentagon as if they own it?

## Who really is this man > ?

I guess it is safe to assume the source of these photos.

Then there is "just hours earlier" video footage

Just out of interest notice this guy in the picture has a beard?

And all you doubters look closer at the next pictures clearly this man has a beard it's not a picture shadow but a real beard

Now look at this bottom picture clearly it shows he has No Beard, which means the above pictures are doctored to look like him, and an actor taking the Majors place.

A man "described as Hasan" > ?

There's your investigative journalism paid for ...

We are expected to believe that THIS SAME person, Just hours later dressed in combat fatigues and went berserk with 2 handguns..

Yah right... Here's how it was sold in mainstream media: -

Notice it is always a black and white image?  
From all accounts...

This had all the hallmarks of a hatchet job shock and awe campaign.

## His Background

When questioning why this guy would behave the way he did, many would simply say because of his "religion".

If you jump to that conclusion already, it's ok because you have been programmed to think that immediately.

The images and the slant on the news media makes sure a lot of people are scared of a Muslim takeover...

However Lets look whom he was really trained by...

What he was programmed to do?

This guy never had a gun license?

True or False?

This guy was Un-American?

True or False?

This guy was a highly trained trauma counselor with a number of top-secret trainings involving Homeland Security.

True or False?

In fact Nidal Malik Hasan was very much a True American.

So much so, that he may well have been CIA.

Lets take a closer look at him shall we?

Here we have his concealed weapons permit.

Hardly the sort of document an "Al Qaeda sympathizer" could be bothered to get.

Surely.

Note the address: Community Grocery Store in Virginia.

Here we have his Training Diploma Certificate for the US Infantry from 1988.

Hardly the sort of document an "Al Qaeda sympathizer" could be bothered to get.

Surely.

These documents show Nidal Malik Hasan was a law abiding American.

Personal Protection Course in 1996 with the NRA.

Hardly sounds like an Al Qaeda Operative to me.

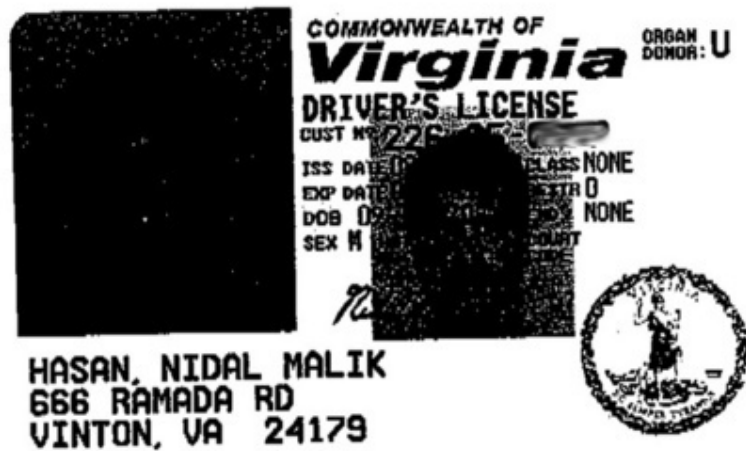

All these organizations can accredit this man with doing these great things.

Yet we have the media telling us something else?

## WHO CAN WE TRUST?

This paper trail makes it pretty obvious the guy is a "by-the-book" American.

He gets his licenses and fills out his letters to a "t" Even lives near CIA headquarters.

Since 9-11 and the clampdown on "Suspicious type Americans" Doesn't ANYONE think that by now this guy would have been arrested or detained or at least locked away if he was for real this much of a threat to America.

I don't think for a second he could have "Slipped" under the radar so to speak.

I do think he was set up or trained as a perfect Manchurian candidate, useful for his one event then expendable.

Having dealt so closely with Homeland Security courses and advisory committees is a wonder what "things" he had to go through to get clearance.

Consider that.

As a Palestinian, he would be classed as an ideal candidate to be used to further garnish Israeli sympathy, and indeed would be considered expendable under any circumstances.

The recent Erik Prince saga showed that the military are prepared to throw anyone under a bus, whom they consider expedient to their needs, even their most loyal..

Hasan spent a lot of time around Blacksburg, VA. And, as is now being reported, he was a 1995 graduate of Virginia Tech University:

Hasan was Virginia native, Va. Tech graduate

<http://www.nbc12.com/Global/story.asp?S=11454903>

Virginia Tech University seems to be a magnet for horrible events.

We will all remember that on April 16, 2007, Seung-Hui Cho allegedly murdered 32 people at the university before allegedly turning the gun on himself.

The massacre at Virginia Tech has been thoroughly proven to have been a lie — a false-flag/black-ops covert operation carried out by US Military/Intelligence operations.

Beheadings are extremely unusual on college campuses, but a horrible beheading occurred on Virginia Tech when a student decapitated a female Chinese student with a kitchen knife.

The two had been friends and had not been arguing prior to the event.

There was no bad blood between them.

<http://www.foxnews.com/story/0,2933,482025,00.html>

Two students from Virginia Tech were found dead about 15 miles from the campus in a Blacksburg campground.

Both were shot dead.

<http://hamptonroads.com/node/521158>

In 2006, the brother of a US Army veteran broke out of prison and committed murders near Virginia Tech.

[http://en.wikipedia.org/wiki/William Morva#Escape and capture](http://en.wikipedia.org/wiki/William_Morva#Escape_and_capture)

What is going on in and around Virginia Tech?

Perhaps a look into the connections of the institution will help us understand this.

<http://www.thetruthseeker.co.uk/article.asp?ID=6409>

-The Defense Advanced Research Projects Agency (DARPA), the research arm of the Pentagon, finances Virginia Tech. Virginia Tech is an active partner of DARPA.

DARPA is deeply involved in continuing mind-control/MKULTRA research.

-Virginia Tech has on-campus “bird flu” experts (spooks).

The military-pharmaceutical complex engineered bird Flu, like the Swine Flu.

-Virginia Tech focuses on DNA splicing, advanced disease control, biomedical engineering, biomechanics, tissue cell engineering, and behavioral science.

It has departments focused on disaster trauma’s effects on children.

These departments reported directly to Laura Bush, George W. Bush’s wife.

Virginia Tech is also involved in neuroengineering (mind control) projects.

-The CIA has a strong presence at Virginia Tech, and frequently recruits students from it.

-Most Virginia Tech graduates go on to work for/with NASA.

-Virginia Tech is one of the only three public universities in the US that offers a military lifestyle, as well as a civilian lifestyle.

It has a huge ROTC program.

Hasan was part of this ROTC program.

-Virginia Tech is sacredly created with the same native limestone that was used to create the Egyptian Great Pyramid, which gets us into the ancient mystery religions/schools, and the Freemasonic /Illuminati significance of the Pyramids/Egypt.

According to mind control survivors, there is an underground laboratory controlled by DARPA in the Blacksburg area (7000 feet under a local mountain) that is involved in classified defense projects and mind control research:

"Blacksburg, VA houses a US government ABOVE TOP SECRET underground laboratory (in the side of a local Blacksburg mountain) that develops in conjunction with DARPA, weapons such as human robotic mind control programming."

[http://www.associatedcontent.com/article/222840/strange\\_virginia\\_tech\\_coincidences.html?cat=7](http://www.associatedcontent.com/article/222840/strange_virginia_tech_coincidences.html?cat=7)

Not surprisingly, Hasan's connections to covert military projects don't end there.

After that, he graduated from the Center for Applied Behavior Systems, a US Psychological Operations training center.

He then went onto study at the Uniformed Services University of the Health Sciences, a site for active MK-Ultra / Mind-Control research.

And, perhaps the most shocking of all, Hasan was a member of Obama's Homeland Security Transition Team!

Now, we're told that Hasan was a radically devout Islamist.

Yet, stories of Hasan prior to the massacre paint a much different picture.

Like the supposedly devout 9/11 hijackers, Hasan was a frequenter of strip clubs.

Particularly, he enjoyed the Starz club.

He bought a number of lap dances there and brought a six pack of beer.

He sipped some of it, then gave the rest to the strippers.

<http://www.foxnews.com/story/0,2933,573052,00.html>

Does this man sound like a devout Muslim, full of hatred for Western culture, to you?

He did go to a mosque, but there are some things you should know about that.

Hasan's mosque in Maryland wasn't your everyday Islamic spiritual center.

It was involved in financing CIA operations abroad

The Muslim Community Center has held fundraisers for Chechen jihadists, and promotes on its website a Shariah-based financial product offered by a Muslim Brotherhood front group under federal investigation.

<http://www.wnd.com/index.php?fa=PAGE.view&pageId=115465>

Webster Tarpley, an expert on false-flag operations and state-sponsored terrorism tells us.

The essential element here is that the mosque was raising money for Chechen rebellion, which is notoriously a strategic tool of the United States and the United Kingdom against Russia .

Perhaps such a fundraiser for Chechen terrorism might have been attended by Ilyas Achmadov, the de facto ambassador of the leading CIA-backed Chechen organization implicated in terrorism, who lives in Washington , DC at US taxpayer expense thanks to his sponsorship by Zbigniew Brzezinski, and the gray eminence of Obama's foreign policy team.

<http://www.thetruthseeker.co.uk/article.asp?ID=11637>

So, "devout Muslim" Hasan's mosque was involved in funding foreign covert operations being conducted by US Intelligence.

Now, Hasan and his mother had practiced Islam at an Islamic center in Falls Church (Not too far from CIA headquarters) that was run by Anwar Awlaki / Awlaqi, who has a history of being a magnet for people who later end up being the patsies of US Military-Intelligence Operations.

Hasan was a disciple of Awlaki, with deep respect for him — Awlaki was in a perfect position to 'handle' him.

Several of the alleged 9/11 hijackers attended Awlaki's mosque, including Hani Hanjour.

Hanjour was the alleged pilot of Flight 77, who, being described as a terrible pilot by his instructors,

supposedly pulled off remarkable maneuvers that even professional pilots say are impossible, before slamming his airplane directly into the Pentagon.

Awlaki's other mosque in San Diego was, amazingly, also frequented by future alleged 9/11 hijackers, such as Khalid al-Midhar and Nawaf al-Hazmi.

Awlaki met with Hazmi before, but "claimed not to remember any specifics of what they discussed".

The so-called Toronto 18, who were 'handled' by FBI / RCMP agents, were admirers of Alwaki, and listened to his online sermons.

Amazingly, Awlaki was also the inspiration for the "terrorist group" (also well-handled patsies) that tried to attack Fort Dix.

**MAJOR HASAN'S SECURITY CLEARANCE: SECRET**

Major Hasan reportedly has a security clearance which allows him to receive secret information.

All US Army officers are required to have at minimum a secret-level security clearance, and Major Hasan's

clearance might even have been at the more stringent top-secret level.

All indications are that Major Hasan's clearance was never reviewed, despite his ostentatious antics. [Read more....](#)

## **Major Hasan Of Fort Hood - A Patsy In A Drill Gone Live?**

By Webster G. Tarpley  
11-15-9

In the wake of the massacre at Fort Hood Texas , two principal theories have emerged to explain the conduct of the accused shooter, identified by the U.S. Army as Major Nidal Malik Hasan, an Army psychiatrist of Jordanian-Palestinian ancestry. One of these theories is embraced by left liberals and other supporters and acolytes of the Obama regime, and argues that Major Hasan is a sincere and devout Muslim who was the victim of a tragic contradiction between his religious faith and the logic of the Iraq and Afghanistan wars, both the heritage of the odious Bush-Cheney regime. According to this version, Hasan must be viewed as a troubled and tormented individual who "snapped," breaking down psychologically under the stress of his awful predicament. Here is how Obama summed up this approach: "Even within the extraordinary military that we have -- and I think

**Portland soldier at first thought Fort Hood shooting was a training exercise**  
By Lynne Terry, The Oregonian  
November 09, 2009, 8:00PM

A Portland woman who was injured in the shooting rampage at Fort Hood last week thought she was in a training exercise when bullets started spraying the room.

"The first one grazed her forehead, and she started bleeding," said Trey Carskadon, the oldest brother of Capt. Dorothy "Dorrie" Carskadon, who was among the 38 injured Thursday. Thirteen were killed.

"Her initial reaction was 'That sure seems like a strong lead for a blank,'" he said. "Then she was shot in the hip, and she thought, 'Those rubber bullets sure hurt.'"

He said his sister, who was set to deploy to Afghanistan last Saturday, told him she felt her hip go numb. Then, as she tried to help a pregnant soldier who later died, she was hit again.

The third bullet, slamming into her stomach, caused extensive injuries. Carskadon underwent surgery all night and remains in intensive care at Carl R. Darnall Army Medical Center at Fort Hood.

Her four siblings rushed to her bedside this weekend. The Carskadons grew up in Eastmoreland, a Southeast Portland neighborhood, in a close-knit Irish Catholic family that has a long history of pulling

## Training exercise at Fort Hood. - CLTV

Bono told "Good Morning America" today that she initially thought the scene of Hasan standing up, praising Allah and starting to fire was a drill.

She didn't believe it was real even when she felt her own blood, she said.

<http://abcnews.go.com/GMA/fort-hood-shooter-maj-nidal-malik-hasan-shot/story?id=9018559>

Pfc. Amber Bahr of Random Lake heard someone yelling and ducked at the sound of gunfire, but she said she thought supervisors at Fort Hood were holding a drill last Thursday.

<http://www.jsonline.com/news/wisconsin/69626847.html>

For many of the 43 people wounded when an Army psychiatrist allegedly went on a shooting rampage at Fort Hood, the scene was unreal — it seemed like something out of a movie.

Maybe it was a drill.

<http://abcnews.go.com/GMA/president-soldiers-families-flock-ft-hood-memorial/story?id=9039151&page=2>

"My initial thought is that it was a drill," said Hamrick.

"Because you know you're always getting drilled for situations."

[http://www.kxan.com/dpp/military/army/kxan\\_military\\_Hasan\\_family\\_contacts\\_attorney\\_11092009](http://www.kxan.com/dpp/military/army/kxan_military_Hasan_family_contacts_attorney_11092009)

"They had no idea what was going on; everyone thought it was a drill at first," Blancett said.

<http://www.miamiherald.com/460/story/1321119.html>

What we can draw from all of this is that

-Fort Hood was no stranger to surprise terror exercises.

They were business-as-usual.

-Everyone in the area first thought that the shooting was a training drill.

It's been widely reported that Hasan shouted "Allah Akbar!" before opening fire.

Since it is generally accepted that radical Muslims shout this before detonating their bombs, could it be that Hasan believed he was taking part in one of the base's many drills?

Could the "technicians" (The 'other' shooters) have been brought in under the pretense that they were going to be participating in some kind of training exercise?

In "Deception 101, a military paper financed by the US Army War College, Joseph W. Cadell

Writes: -

Cover is the use of an apparently non-threatening activity to disguise preparation for or initiation of a hostile act.

A common example is the use of a training exercise to hide preparations for an attack.

If the training exercise was the last in a long series of training exercises, which had not led to actual hostile action in the past, this could also be an example of conditioning hence the tendency to refer to "conditioning and cover."

The two concepts are linked by their complementary definitions.

In recent years, both the Yom Kippur War of 1973 and the Falklands War of 1982 were launched under the cover of training exercises similar to exercises, which had occurred before.

<http://www.fas.org/irp/eprint/deception.pdf>

During both the 7/7 attacks and the 9/11 attacks, there were training exercises being conducted that had a striking resemblance to the terrorist event that they just happened to coincide with.

On 9/11/2001, the US Military was conducting exercise that involved live-fly hijackings, an airplane crashing into a military building, and terrorist attacks inside the US.

On 7/7/05, a private company with close links to British police/intelligence services was conducting a drill that involved simultaneous bombings on the London Underground.

Some of the imagined targets were stations that were hit in the actual attacks.

There is much evidence that the Oklahoma City Bombing coincided with some kind of ATF bombing exercise.

Within minutes of the blast, ATF agents showed up on the scene in full bomb gear, which takes at least half an hour to put on!

The Columbine High School Massacre had happened a week after the school was locked down for a mock shooting exercise.

Two days after the massacre at Virginia Tech, US Marines were seen conducting a bizarre drill on-campus, indicating that such things were business-as-usual there.

This type of "cover" operation was visibly run when the Gulf War was launched: -

"We went ahead and did an exercise, what's called a command post exercise, which is what Internal Look was to test our ability to deal with this particular scenario ... Just so happened we were in the middle of conducting the Internal Look command post exercise at the same time the crisis developed in the gulf."

<http://www.hiddenwars.org/>

<http://www.globalsecurity.org/military/ops/internal-look.htm>

No wonder people dismissed a few rounds going off and stood there waiting to be slaughtered.

They were programmed to stand around waiting and everyone played their role in the script.

Where was the resistance?

Why wasn't there a fight put up against "one man"?

After all this is Americas biggest Army base?

The story of Hasan, alone, carrying out this massacre does not make sense.

Citizens for Legit Government received word from an expert on why?

SFC, who spent ten years at Fort Hood, comments on Ft. Hood events 09 Nov 2009 I spent 10 years at Ft Hood.

There is no way this 'official' story is legitimate.

No way would a room full of combat vets allow this one shooter to get off over 100 rounds!

And, it is not normal for the outside security guards to be there.

They are at the MP station, and at the main gates.

This means the room full of soldiers processing must have been pinned down multiple shooters is the only plausible scenario, this sounds like MAJ Hasan has been used, and perhaps is a patsy.

–SFC Donald Buswell (Retired)

At least 12 people have been killed and as many as 31 wounded at an army base in Texas after gunmen opened fire.

The killer, believed to be a member of the US army, was shot dead at the scene. [This story was superseded when the suspect was found to be alive.] Two other suspects were arrested in relation to the incident at Fort Hood.

## What about the Logistics?

Can a Single Shooter kill and wound that many with just 2 handguns?

Logistically speaking one person using two hand guns could not have fired off that many rounds they said he did, that rapidly, and with that many hits, injuries and confirmed kills.

The story stats just don't add up.

Many of the reports were saying the Shooter was using an assault rifle..

A clear indication of more than one shooter and sheer failure of the official story.

The official version now says that Hasan used semi-automatic handguns.

However, initial reports and eyewitnesses tell another story

From KCEN-TV in Waco, Texas: Reports say the shooter had a high-powered rifle and was aiming to kill.

<http://www.jackbloodforum.com/phpBB3/viewtopic.php?p=142108#p142108>

I never before considered the first reports to be anything other than “media mistakes.”

I recently talked to a friend of mine who is at Ft. Hood and was in an adjacent building during the incident.

She graduated from "Combat Medic" school with me and was stationed at Ft. Hood after graduation.

We were trained and qualified in both the M16/M4, and the M9 (9MM) handgun.

She said that the shots she heard couldn't possibly have been from handguns.

She said it sounded like the "burst" mode from MULTIPLE rifles.

Hasan, the patsy, was armed with semi-automatic handguns.

When he was shot, he was found with semi-automatic handguns.

Thus, despite the fact that the other assailants used rifles, and that this was witnessed/heard/reported, the official version had to delete rifles from the plot line.

Many of the reports were saying the shootings were coming from MULTIPLE AREAS.

We are now being told that all of the shootings happened in one small area on the west side of the base known as the Soldier Rating and Processing Area.

However, initial reports told a much different story:

One gunman was caught quickly but the second went on the run and was cornered by SWAT teams in a traumatic brain injury unit on the base where a gun battle erupted

The evidence again points towards multiple shooters.

When shooting events, people holding themselves up in buildings, and chases are reported all over the base, and then it becomes impossible to maintain the idea that there was only one shooter.

This is why all of these events, which did happen and were initially reported on, had to be erased from the final version of events.

# The Lone Gunmen Theory

Most people accept there was just the lone shooter?

True or False?

Initially, it was first reported widespread by all news services that there were, in addition to other shooters, arrests of suspects.

In fact, it seems that some of the very early reports coming out of Texas and Fort Hood described up to five shooters.

It would appear that this massacre was not carried out by Hasan alone, but by a squad of shooters.

This squad used Hasan as their patsy.

No wonder people dismissed a few rounds going off and stood there waiting to be slaughtered.

They were programmed to stand around waiting and everyone played their role in the script.

This is Operational Programming.

Ask Yourself..

Why does the media never put these pieces together anymore?

Why has this information remained a secret from the public?

Because reporters are not paid to investigate anymore, they are paid to REPEAT the company policy.

Essentially what we have here is a well-sold operation that reeks of a false flag attack.

Personally I think the evidence speaks for itself.

Whatever the real scenario was on that day we perhaps may never know or maybe one day somebody who wants to get the truth out will speak up.

Because as with all Official Stories..

This one stinks to high heaven..

## END OF STORY

### Conclusion

So there you have it people, The Fort Hood Shootings Attack, what we have just done in ½ hour to an hour is collate all the news stories of the day coming from the Mainstream Media and different commentators.

News stories reported in live time with people on the spot there as it was happening and placed them at your disposal to read the whole story.

Then 24 hours all these above stories are wiped, Oh they are not true anymore and A Official Story is released to the Media, who in turn add their bias,

change facts details or what ever then feed you the consumer, reader, listener the story.

But don't worry it's the Truth, we are (Uncle Sam) we would never lie to the people No, No, No your just a Conspiracy Theorist wearing a Tin Foil hat if you don't believe your Government, Police, Military, Intelligence Agencies.

We are the Mainstream Media we would never tell you lies, doctor pictures and put all News stories through so many washes taking this out, putting this in to suit ourselves.

Don't be silly we the Mainstream Media would never do that, well lets see if they wouldn't have any of these above reports ever been reported again?

NO!

Which means tapering with Official on the spot – eyewitness reports = **lying.**

**Wow** – Look what I just found

<http://vidrebel.wordpress.com/2011/12/28/video-seal-team-6-911-and-virginia-tech-actors-exposed/>

### **Seal Team 6 - 911 And Virginia Tech Actors Exposed!**

The same actors who appeared in the shootings at Virginia Tech were at 911 and as members of Seal Team

6 and the Occupy Movement. They also were at the Gabrielle Gifford's and Fort Hood Shootings.

I thought I knew this bitch from somewhere while examining these pictures for discreptencies, the woman you will see one of these paid actors who were about amazingly on the scene to be interviewed on Sept 11<sup>th</sup>, and other staged Pentagon events.

I should point out with these pictures

Only a man who goes to a Barber would pick this because of how they cut our hair, they ask us men do you want it cut and left over your ears the hair or around the ear.

If you say about the ear, they cut with clippers and scissors around your ears like that lady in the bottom picture notice the butch hair style cut and how the hair is cut around her ears 1 inch at least around the ears.

Now look at the woman in the above picture her hair is over the ear and black

Not the same people we are being asked to believe they are similar people but not the same the haircuts and how they have their hair cut and combed gives this staged pictures away.

Again look at the guy in the above pictures he has a beard, the real Major below has no beard!

Now we know by the Pentagon or who ever releasing False pictures to the Media and then the Media trying to sell the pictures above as Major Hasan we now know there was a cover up.

Your going to ask but why release False pictures above and stages these pictures to help sell the Official story.

Nasty, evil Muslim who hates America with a beard  
Blah, Blah, Blah they are trying to brainwash you, use mind control over you – to influence you what a Nasty Evil Muslim Linked “Al Qa`eda” Terrorist looks like.

The more dangerous looking the better.

By Steve Johnson getting these pictures and us examining them close up with other pictures of the

real Major Hasan, we now have good cause to believe the Major was set up.

After examining all the available evidence, which was reported this day, clearly you can see The Official Story a load or steaming hot bull-shit/

This is what we here at The OzBoy Files think what really went down that day, The Major was seeing and counseling about 5 or more men for PTSD.

These men were about to be deployed back to Iraq for active assignment, after serving there in Iraq and seeing the "Killing Fields" and "Absolute Murder" abuse, torture committed on innocent Iraq's by their fellow American Troops.

When the Major broke the bad news he couldn't get them out of deployment back to Iraq they snapped grabbed their riffles and went on a shooting spree.

The Major was caught held up with one of the men in one of the buildings, with the guy shooting from the window any walking – moving targets walking by.

The other 4 men took off in different directions around the base shooting widely anything that moved.

Notice in all the stories above there is NO mention of MP's or Private Security People firing back.

This gives the whole story away, MP's, Swat Teams, Private Security all pinned down, by the 4-5 shooters which means Military command knew who the

shooters were and wanted to capture them alive, try and defuse the situation.

Being given orders from somewhere?

They broke into teams 3-4 teams to surround the shooters and bring them under control either by making them move from their protected position, hence one of the shooters was caught on that Golf Course 2.5 Kims away.

Go back and read over all the news feeds of the stories above being reported in live time, by emergency workers and police.

So they gained the upper hand and control of the situation, then we come to the Major held up with one of the shooters, the Major gets that situation under control and with outside MP's, Swat Team members help, they talk him down.

What to do next?

Blame the nearest person connected to these men at the time, which was the Major, twist, the facts, story and details and put the blame on him.

It was a knee jerk reaction being directed by Pentagon Brass, don't let this get out that 5 men suffering from PTSD had a break down and when ape shit on a rampage.

Don't forget this is a very volatile situation if this gets out to the rest of the what 200 – 300 troops at the

base 5 men went ape shit the rest might possibly revolt also from being deployed.

So on the spur of the moment full resources of the US Military – Pentagon went into action to set up the Major as the shooter and blame him for the attack.

Thinking quickly this would also work in with Pentagon Psy Ops plans of demonizing Muslims as mad terrorist, and keep the War On Terror on track.

That was their mistake trying to set up a law abiding person as the shooter when all the facts / figures / News stories above aired in live time were being fed.

Looking at the Majors Military record above, nobody with the Major's credentials would do something like that.

Bring in the paid actors on the books the same ones who were involved in other events either staged or not and we are getting somewhere near the truth of what really happened this day.

Instead of the Great Super Powers (Uncle Sam) United States of America admitting they had a problem with allot of their troops coming back with PTSD.

The military goes into over drive to make sure Uncle Sam comes out sweet and clean, never does anything wrong, never admit to the truth, deny, deny, deny there is any problem.

I am only on disability pension.

But its Steve Johnson I worry about the most, he is a hard worker, helping with these books, he producers videos, websites and needs a new computer.

The computer he has is 6 years old, and I would love to buy him a New Computer, Monitor and Printer and Chair

I have a figure of \$3,000 Australian in mind, so if you can help **The OzBoy Files** and help me buy Steve this computer I promise you will see more great stories like this.
